So, if you're a horror collector, this one isn't the worst or anything. It's a bad game, but I didn't find it dull. Some of the sound design was alright, but it's a short experience that doesn't use its cheap qualities well, has a few bugs, and turns out more silly than effective. It re-uses the same puzzle multiple times (and is the only puzzle in the game), there's maybe two encounters with anything threatening, and most of it is just walking around bland-looking environments while spooky sounds happen and you collect things. Still, could of been worse, found myself amused, and for \$2 you could do a lot worse, even in the first-person indie horror game scene. Not recommended if you want a good game, and thus why I don't recommend it (much better alternatives), but in the end not offensively bad or anything, more... Silly-bad. Grammar and spelling mistakes up the wazoo, the whole game is about a cursed mirror and you never see the mirror... I don't strongly dislike it, it's not good, and I guess if you really want to experience it, then go for it. Just go in with the expectation that this isn't a good game, and you may have a little dumb fun with it.. It's Dungeon of the Endless but with even more stuff.

Literally reason enough to buy it.. i am amazed by the music, the story, and the characters, well done, i recommend this game to play, and for that money, dont even consider to NOT play it. well done developers,!. **BRING BACK MY MONEY ITS FREE NOW!!!!!!!!!!!!!! WHY YOU MAKE THIS FREE WHYYYYYYYYYYY BRING BACK MY MONEY NOW I NEED REFUND!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!**. Overall the models and stuff like that are pretty neat. The weapons are cool as well. But i would not recommend this if you wanted to play gae with dragons. The manta rey is extremely unbalanced in my opinion. Being able to simply turn faster than everything else, rendering itself impossable to hit. Playing any other dragon is not really an option, for you will get\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665by the Rey. I cam looking for game called time of dragons to be able to play as dragons. It should most likely be renamed Time of Manta Reys.

I played the game for a hour and it's rage inducing, Money's hard to get, rep is a \u2665\u2665\u2665\u2665\u2665 to get, overall an unfair game that has no fun factor. If you do not get the Black Prince when you purchase it there is a quite simple fix. Login to War Thunder with the Steam Login function and it will appear after you exit the game and re-log with the Steam Login function.. I loved it! However, I couldn't figure out how to shut off the cylinder \u2665\u2665\u2665\u2665\u2665.. That a great game guys, i was a bit lost for start, time to get to know the cards. But after all if you take a little time to play and learn on the way is a good game to spend time on. I definitely recommend this game to all people who like cards games. I m curious to see the chapter2 as i would like to keeping the adventure futher.

enjoy..... This game is\u2665\u2665\u2665\u2665\u2665. If you get easily salty cos of bad game mechanics then you shouldn't play this game.

In general I'd suggest everyone to play this game with a walkthrough of it, so everytime when you get stuck you can check the walkthrough and progress further in the game. I play a lot of detective games and I got stuck a lot of times in this game, cos sometimes you literally have to find a bunch of hair somewhere which you can super easily overlook.

And if you reach the point in the game where you have to sneak past a guard and the guard dog: **SAVE IMMEDIATELY!**

Because if you fail to sneak past them, the investigation is over and you have to re-load a save. Since this game does not have autosave, it has happened to me that I forgot to save for quite a while, got caught by the guards and lost progress of almost an hour.

And if you reach the point where you're in a forest which is kind of like a maze: **SAVE IMMEDIATELY AGAIN!** Because the same thing will happen again if you fail this mission.

Some of the puzzles did not make any sense to me, even with the help of the walkthrough. And the story can get super confusing at one point cos it's connected with so many side stories and I gotta admit that I lost track of what was happening halfway through the game. Still played it until the end cos I wanted to know who the murderer was.

All in all the game wasn't bad. Some mechanics were weird, some puzzles didn't make sense and the story is confusing but it still was an experience and fun to play through it. I'd say buy it when it's on sale so you won't regret spending the whole amount on it (let's be honest, the price is too high).

You can finish it within 8-10 hours.
